ISTRUZIONI PER L'USO. Si consiglia di non tagliare le parti dalla cornice prima di studiare ciascuna figura a fondo. Prima di tagliare si deve abbinare il numero della parte (situato su delle piccole etichette sulla cornice stessa) con il numero corrispondente a ciascun diagramma di assemblaggio. Iniziando con la prima parte, si usano le forbici di sicurezza per tagliare le parti dalla cornice man mano che servono.

Si rimuove l'eccesso di plastica da dove è stato tagliato il pezzo. Si continua l'assemblaggio dello Zoid, pezzo per pezzo. I pezzi vengono assemblati ad incastro, senza l'uso della colla. Una volta incastati i pezzi si accende l'interruttore e si controlla l'azione.
